

Farm Week Play Prompts

Farm Week Play Prompts

Safety first - These activities are suggestions of how to engage your baby in play. They need to be carried out with adult supervision and you taking full responsibility for your baby during play. Please ensure that your little one is supervised with the toy at all times. Keep your little one in arms reach and eye sight when they are playing.

This printable has been produced by The Sensory Sessions, it cannot be copied, shared or replicated without permission

Farm Week

We have popped together some play prompts for you during our farm week theme. On the following sheets you'll find some graphics to hopefully inspire your farm themed play

Some ideas to get you started -

- black and white 'cow' patterned page. You can use this if you have a printer or use it as inspiration if you don't! Black and white images are amazing for your baby's visual development and we'll be doing some visual inspired play this week!

- animal shapes are amazing for creating puppets for visual tracking by cutting the images out and sticking to spoons, straws or sticks, using as a tummy time distraction by popping them on your playmat or on the skirting board. Please keep the paper away from mouths!

- tractor image for no mess painting. Pop the image in a sealable bag with a small quantity of paint and let your little one feel and touch the paint through the bag. Remove from the bag and allow the picture to dry
