# Under the Sea Week Play Prompts

Safety first - These activities are suggestions of how to engage your baby in play. They need to be carried out with adult supervision and you taking full responsibility for your baby during play. Please ensure that your little one is supervised with the toy at all times. Keep your little one in arms reach and eye sight when they are playing.

# Under the Sea Week Prompts

We have popped together some play prompts for you during our under the sea week theme. On the following sheets you'll find some graphics and photos to hopefully inspire your fish themed play. Here are some ideas to get you started -

- fish & fishing rod - draw or cut out a fish shape and attach it to a paper straw with some string. Holding it towards and over your baby it is amazing for visual development, tracking and some hand-eye co-ordination

- Under the sea texture tub - put together a texture filled play space with lots of ocean creatures, fabrics, links, starlinks and music toys. Using a paddling pool or a ball pool is a great way of creating a themed space

- fish themed no mess painting - print or draw a fish shape onto card and pop it in a ziplock bag with some paint. Let your little one touch, lie and sit on the bag to create their art!

- bubbles are amazing for visual development and very calming for babies so conclude your sea themed play with a lovely calm moment

# Under the Sea Themed Canope

Our under the sea canope one of our favourite activities, we love creating an under the sea space for our baby's to enjoy. We've done this by attaching net seaweed and felt fish to a piece of fabric. It is easy to recreate at home on a smaller scale with some fabric or paper at home, using a hanger, muslin square or a play tent to attach the fabric too. It is a lovely way to do so our little ones can do some lovely visual development activities, while working on co-ordination, textures and their motor skills.
