

Pumpkin Themed Play Pack

Pumpkin Themed Play Prompts

Safety first - These activities are suggestions of how to engage your baby in play. They need to be carried out with adult supervision and you taking full responsibility for your baby during play. Please ensure that your little one is supervised with the toy at all times. Keep your little one in arms reach and eye sight when they are playing.

Pumpkin Themed Play Prompts

We have popped together some play prompts for you during our pumpkin party week. On the following sheets you'll find some graphics and photos to hopefully inspire your pumpkin themed play. It is an amazing play theme!

Here are some ideas to get you started -

- no mess painting - this is the activity that we are going to be doing in our parties. Print or draw a pumpkin shape onto card and pop it in a ziplock bag with a little paint. Let your little one touch, lie and sit on the bag to create their art! We've popped some black and white images in this pack for you.

- create a spider sensory basket - loop ribbon or string around the holes in your washing basket, and pop some toys in the bottom of the basket. Amazing task for your little one's motor planning skills. the wider the ribbon the more challengeing it is!

Pumpkin Themed Play Prompts

- messy play - pumpkin party week is an amazing opportunity for some messy play for our little ones over 6 months, let your little one feel the pulp and seeds from the inside of your pumpkin (under your supervision!). For our little ones who are less keen on mess you can pop the inners in a food bag and let them experience some texture play.

- create a pumpkin party themed play space - you could do an orange space, great for visual discrimination skills, some contrast, theme a space around a book or story. Sitting your little one in a play space or popping it together in a sensory basket is amazing for adding textures into play
